Important Information

Bark! Bark! Bark!

Please remember excessive barking can result in neighbourhood disputes, mental health issues and violations of animal control ordinances .

If a dog's barking has created tension amongst neighbours, it might be a good idea to discuss the problem with the dog owner. It's perfectly normal and reasonable for dogs to bark from time to time, just as children make noise when they play outside. However, continual barking for long periods of time is a sign that your dog has a problem that needs to be addressed.

For more information please visit: <https://winnipeghumanesociety.ca/your-family-pet/classes-and-education/behaviour-help/barking/>
